Work Experience

Oct 2014 – Current	Technical Consultant
Web Application Architect	Austin, Texas

As a full stack open source web developer since '01 I have had the unique opportunity to see the good, bad and ugly of web development. As a consultant my goal is to diversify my business opportunities and seek start-up or contract opportunities that may potentially lead to more vested business discussions.

Highlights of Responsibilities

- Software Architecture Planning and Release Scheduling.
- Cloud Architecture (HIPAA/PCI) Vormetric Security.
- Full Stack Open Source Application Development.

Oct 2013 – Oct 2014
Director Design & Development

SaleAMP, Inc
Austin, Texas

A full-service agency specializing in Search Engine Optimization, Pay Per Click, Content Creation and Social Marketing. Working with multiple teams of developers, designers and marketing professionals I managed the scope and direction of all development, design and systems.

Highlights of Responsibilities

- Manage on-site/off-shore development, design and technical staff.
- Facilitated client and internal projects and production schedules.
- Maintain and improve internal production tools and applications.

May 2009 – Oct 2013
Web Director & Technical Manager

Photon Factory, LLC
Austin, Texas

Web director of Unity (web), LIVS (video) and operations manager of IC3D (server/client) systems. Unity, LIVS and IC3D software suites are focused on servicing the offshore engineering industries with on location document controls, live/recorded video and 3D modeling/manipulation tools.

Highlights of Responsibilities

- Lead direction of all web and open source technologies
- Technical management of techs, software and remote operations
- Architecture of web applications into Amazon Web Services (EC2,S3,EBS).

June 2004 – May 2009
Information Technology / Web Director

Publications & Communications Inc
Austin, Texas

Key manager responsible for the daily business and technical operations of a fast paced national magazine publisher. Working closely with executive publishers, sales/marketing managers and art directors to maintain consistent results across print and web environments.

Highlights of Responsibilities

- Subscription Database management, distribution and fulfillment services.
- Manage corporate web portfolio: design, development, systems
- Direction of email, fax & online marketing campaigns

Apr 2003 – Dec 2003
Account Executive

Sai People Solutions
Kingwood, Texas

Manage web sales and development contracts: sales, marketing and web development specialist for web division of Sai People Solutions.

Highlights of Responsibilities

- Discovered new clients through innovative discovery and marketing strategies
- Identified clients needs based upon cost and project baselines
- Assisted in development of web interfaces, graphics, and application designs

May 2001 – Aug 2002
Technical Manager / Web Developer

Able Management Company
Huntsville, Texas

Technical support, web design, and networking for retail / wholesale glass company and online ammunition reseller. Four retail, two wholesale sites and management office.

Highlights of Responsibilities

- Web Site Design & Management
- Managed company network and servers.
